

BAKHT MUHAMMAD

SOFTWARE ENGINEER

ABOUT ME

I am a skilled software engineer with 4+ years of experience in Flutter mobile app development. My expertise includes Dart, Python, Java, MySQL, Firebase, and frameworks like MVC, MVVM, Provider, Bloc, and GetX. I specialize in creating high-performance apps for Android and iOS, focusing on seamless API and payment integration. As a dedicated problem-solver, I am passionate about innovating and collaborating with dynamic teams to deliver exceptional solutions.

JOB EXPERIENCE

Lab Engineer

NUST Balochistan Campus

Skilled lab engineer excelling in MySQL database, web engineering, programming fundamentals, OOPs, compiler construction, and app development courses. Known for providing tailored student feedback to elevate learning experiences.

2022- PRESENT

Flutter Developer and Mentor

Augersoft

Augersoft provides cost-effective, quality software solutions for mobile, web, and blockchain applications. As a remote developer, I contribute to projects and mentor interns for project success.
